

SHUAIB AHMED

(281)-728-9787 ◇ shuaib.salar.ahmed@gmail.com

EDUCATION

Houston Community College, Houston Texas

August 2019 - Present

Major: Electrical and Computer Engineering

GPA: 3.8

CAREER OBJECTIVE

I am a computer engineering student seeking opportunities to learn and enhance my programming and data science skills.

PROJECTS

Django website

- Created a website to display portfolio along with a blog section to write about interesting insights I extract from my data analysis.

Analysis over Covid-19 data set

- I conducted a complete analysis over an India's covid-19 dataset. My analysis went through all the steps of a complete analysis. Including Data extraction, Data Cleaning, Exploratory Data Analysis and finally modeling India's deaths using a Multiple Linear Regression Model.

Web Automation with Selenium

- Using selenium I created a web automation tool which tests out the login feature of pages.

Email Classifier

- I built an email classifier which classifies emails as spam or not spam using industry standard metrics to compute the best model using logistic regression.

SKILLS

Programming Languages: Python, Java

Software's/Skills: Scikit learn(Machine Learning Library)

Matplotlib(Graphing Library)

Pandas(Data analysis, data manipulation tool)

EXTRACURRICULAR

Computer Science Club (President/Founder)
